Marking Change Notice

Compliance with UKCA Marking and WEEE Directives

We would like to express our sincere gratitude to you for your continued support.

We would like to inform you that markings will be changed in order to comply with the UKCA Marking and WEEE directives.

Please find the details below.

Very truly yours

Record

1. Target Model Series

- Please refer to the chart below.

2. Details of Changes (See below)

① Compliance with UKCA Marking

- Add the UKCA mark to the product name plate.
- Add notation of UKCA Marking compliance to product specifications. (To be phased in)

② Compliance to WEEE directive

- Add an icon indicating necessity of separate collection to the product name plate.

* The WEEE Directive is an abbreviation of "Waste Electrical and Electronic Equipment" and is a directive regarding the reuse and recycling of electrical and electronic equipment waste in the European Union.

* There are no changes to the product characteristics, product appearance, dimensions, model or price described in the product specifications.

* Some nameplate sizes and designs will be changed to add the markings to the product nameplate.

* A red "●" sticker will be affixed to the packaging label of the individual packaging box and the outer box to identify the changed product.

(Until December 2022 production)

3. Effective Date

Changes will be phased in from May 2022 production.

* Please note that actual changes depend on order status.

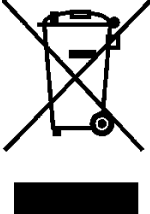

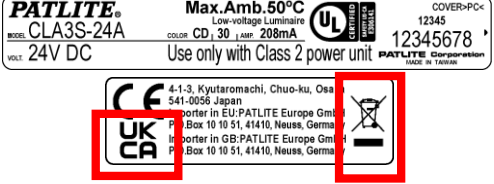

* You can check the production start date for each item on our website. (Scheduled to be released in late May)
